

CONE[®] Champ

www.ConeChamp.com

ConeChamp - The brand new, innovative and 'first' patented product that collects, stacks and stores, sports marker cones

- Sports and activity marker cones are used every day by professional and amateur coaches, throughout the world to mark a training or playing area.
- The problem!! PICKING THEM UP! Sometimes you leave it to the players or the fittest but its always left to the coach in the end
- Marker cones are mostly similar in shape and size which makes it simple with **ConeChamp** as **ConeChamp** collects them all, stacking and storing as many as 100 cones. **ConeChamp** even collects larger hurdle cones!
- Using **ConeChamp** is easy. Just distribute the cones from the top, holding the handle horizontally so the cones do not fall off.
- To collect the cones, simply extend the **ConeChamp** and push through each or a number of cones, then close and carry away
- No more using and losing the small plastic holder which **ConeChamp** replaces

For the distributor

ConeChamp is sold in a retail display box and can be ordered on its own or with a choice of 20-40-50 mixed coloured cones.

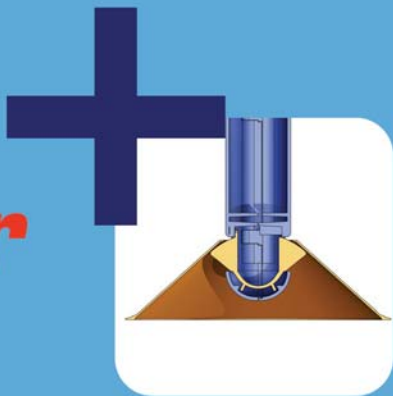

ConeChamp colours are orange and blue SMU colours are available with minimum quantity orders
